

CUMMINS

# JetCoin™

Self Service Coin Kiosk

Shown with optional sign and graphics.

Bring more customers into your store!

MADE IN USA

## Build Traffic, Add New Revenue!

Cummins JetCoin™ kiosks provide an added revenue stream and bring more customers into your store. Self-service coin redemption in the retail environment helps attract and retain customers — and puts cash into their hands to immediately spend in your store!

### Potential Revenue Opportunity

#### You Own the JetCoin™ Kiosk

Any service fees are yours to keep — plus you have the flexibility to charge varying fees to adjust to the market or use as a competitive edge. You can even have different fee percentages for non-customers versus existing customers.

**This investment can quickly pay for itself. For example...**

Average weekly coin intake .....\$ 3,500

9% service fee .....\$ 315

Times 52 weeks/year .....\$ 16,380

### Increased Store Traffic and Customers

#### The Fastest Sorting Speed in the Industry

JetCoin™ kiosks boast sorting speeds up to ten times faster than other self-service machines. With greater speed and user-friendly features, the JetCoin will likely be the preferred coin redemption choice of your customers, resulting in increased visits and word-of-mouth advertising.

#### Cummins JetCoin™ Kiosks Provide Benefits For Your Store Operations

##### In-Store Applications

When switched to attendant mode, your JetCoin can be used to process coins for other in-store needs, such as to recycle coin or balance registers.

##### Minimal Operator Involvement

Various coin collection options provide sufficient capacity to virtually eliminate interruption of customer transactions and reduce the amount of times your staff attends to the unit.

##### Industry-Proven Reliability

JetCoin kiosks use the same JetSort® heavy-duty coin processing mechanism which is used throughout the world in the most demanding applications, including armored car services, casinos and large cash vaults.

##### Accuracy

JetCoin kiosks boast a 99.995+% accuracy rating.

##### Tracking

Includes transaction history records for fourteen days, and a rolling day and week total.

##### Flexibility

These units fit anywhere... against a wall, in a corner, or built into a customer service counter.

## **JetCoin™** Coin Collection Options:

**Sorted Coins  
in Bags**

**Mixed Coins  
in Bags**

**Mixed Coins  
in Single Bin**

Shown with optional graphics.

**Mixed Coins  
in Dual Bins**

Shown with standard CoinMax  
backlit sign and optional graphics.

All units can be used with either cloth bags or plastic bags.

## Cummins offers a variety of coin collection systems so you can choose the one that's right for you.

### Bin Collection System

- **Single Bin** — Coins are counted by denomination and collected using a single, secure bin with a capacity of approximately 60,000 mixed coins - promoting fewer transaction disruptions.
- **Dual Bin** — Coins are counted by denomination and collected in two secure bins with a total capacity of approximately 130,000 mixed coins. When the first bin is full, coins are distributed into the second bin - allowing for maximum uptime.

### Bag Collection System

- **Sorted Bag** — Each denomination is counted and sorted into separate bags that require no further processing. Denomination stickers at each bag holder simplify bag management. Dual bagging is available for pennies, nickels, dimes and quarters. Bag capacities vary by denomination (standard Federal Reserve bags).
  - **Mixed Bag** — Coins are counted by denomination and then collected in 6 bags of mixed coins. Each bag holds approximately 6,000 coins - combining the convenience of bags with the higher capacity of bins.
- Both bag collection systems come with exact bag stops, bag warning LED lights above bag holder, programmable bag limits and automatic bag clearing.

**With all Cummins products, you receive our unsurpassed speed, reliability, and local service network.**

## Reports

Various reports included with the JetCoin provide analysis of the JetCoin kiosk usage as well as operational control. Transaction reports can show real-time daily and weekly totals. Archive transaction reports can be used to assist in machine balancing or settling a customer dispute.

## JetCoin™ Kiosks Also Benefit Your Customers

### **Fast!**

Customers appreciate the fastest sorting speed in the industry of 4,000 mixed coins or 6,500 dimes per minute.

### **Easy!**

A touch-screen display guides customers through the simple redemption process.

### **Reliable!**

Robust, proven technology provides outstanding accuracy and reliability, ensuring customer satisfaction and repeat visits.

### **Convenient!**

Your extended operating hours provide your customers the convenience of redeeming their coin when they want, and without waiting in teller lines at their bank.

In short, happier customers translate into loyalty and more shopping in your store.

The standard CoinMax backlit sign on the JetCoin Dual Bin machine can be replaced with a scrolling LED light with customizable text.

## LOCAL SERVICE & WARRANTY SUPPORT

Cummins is committed to delivering the highest quality products and services. Warranty and maintenance of Cummins products are handled locally, by factory trained, factory direct employees in over 50 North American cities.

## Merchandising for your JetCoin

Attention-grabbing CoinMax merchandising items are available to increase awareness and use of the self-service JetCoin kiosks. Colorful machine panel graphics, posters and backlit headers can be added to the JetCoin kiosks. Buttons, reminder handouts and lane dividers can increase awareness at the checkouts. Outdoor stickers and window clings

CoinMax™ merchandising items

advertise outside your store, while floor graphics and easel signs promote inside your store.

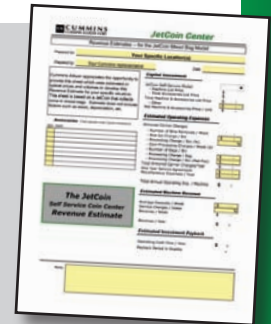

Talk to your Cummins representative for help in selecting the CoinMax graphics package that best meets your needs.

Optional CoinMax sign and cabinet graphics.

### Free Revenue Estimate

Based on potential coin volume, armored carrier processing fees and other factors specific to your store(s), this document provides a tailored estimate of the JetCoin's payback and profitability.

### Approximate Dimensions:

Bin Version: 26" W x 24" D x 52" H

Sorted Bag Version: 30" W x 27" D x 41" H

Dual Bin Version: 38" W x 31" D x 52" H

Mixed Bag Version: 26" W x 24" D x 52" H

**Power:** Voltage operating ranges are either 105-130v or 198-253v. Frequency is 60/50Hz. Customer must provide an electrical supply properly grounded and protected by a circuit breaker in accordance with applicable electrical code. This equipment must be plugged into a properly grounded outlet. To obtain the best results, Cummins recommends using this equipment in conjunction with a dedicated AC power line. Power consumption (full load amps) at nominal voltage: 9.0 Amps (120v); 4.5 amps (220v). Power disruptions that result in input voltage other than the power requirements listed can lead to improper operation of this device or result in failure/damage to electrical components. (Power disruptions are not covered under machine warranty or preventative maintenance agreement.) Power conditioning/stabilizing devices are available through Cummins.
