

# JetSort<sup>®</sup> 1000

## Compact Coin Sorter

# Fast. Accurate. Reliable.

## Counts 2,200 Coins Per Minute

Whether you need a smaller machine to process a minimal amount of coin periodically, or one that can handle a multitude of large volumes regularly, the JetSort 1000 delivers unmatched performance, efficiency and reliability.

Cummins Allison JetSort® series coin sorters have set the world standard through superior quality and customer service. Although the JetSort 1000 is the smallest in the series, it is one of the most versatile. You can keep things small and simple or utilize our wide range of available options to address higher volume applications.

Versatile,  
compact  
and reliable

### Durable and reliable

All JetSort coin sorter models feature a sorting mechanism that has only one moving part, simplifying operations and making removal of stray material fast and easy while providing unmatched durability and reliability.

### Accuracy

Precision machined to a few thousandths of an inch, JetSort coin sorters count and sort mixed coins with 99.995% accuracy. Exact Bag Stop technology makes JetSort the only high-speed coin sorter that can stop on the exact bag or box count – every time.

### Speed

As many as 2,200 coins can be counted in a minute! Mixed coins are sorted and counted at speeds up to 1,500 coins per minute.

### Easy to use

Easy coin counting and coin sorting is at your fingertips. The JetSort coin sorter keeps things simple for operators. All control keys are clearly labeled and display prompts guide the operator to simplify training and increase efficiency.

### Built to last

Using only high-end parts, quality construction, patented sorting mechanism and advanced electronics, the reliability of the JetSort has made it the standard of excellence in the coin processing industry.

JetSort® 1000 coin sorter

# Coin Counting & Packaging System

Cummins Allison JetSort series coin sorters have set the world standard through superior quality and customer service. Although the JetSort 1000 is the smallest in the series, it is one of the

most versatile. You can keep things small and simple or utilize our wide range of available options to address higher volume applications.

Integrate the coin sorter with a currency counter, printer or computer to maximize productivity and efficiency.

## Enhance the speed, accuracy and security of your coin counting operation

JetSort 1000 is a small commercial coin counter but offers many optional features to maximize the efficiency of your coin sorting and counting operations:

- Exact bag stops ensures accurate bag and box counts every time.
- Coin bag adapters for large volume coins allow attachment of plastic or canvas bags.
- Adjustable tabletop stand safely raises the JetSort to fill coin bags.
- Customize for special coins or tokens.
- Connect the JetSort to a printer, computer, JetScan® or JetCount® currency processor.
- Bar code scanners available for automatic label entry.
- Remote display shows coin totals for customer or supervisor viewing.
- Count by denomination into a single transfer box, which can then be poured into a bag or a coin packager. Cash till refill kit counts and sorts coins into a cash register drawer.
- Coin packager accurately fills tubes and wrappers.
- Table mounts, stands and locking doors improve working areas and coin security.

# JetSort 1000 coin sorter

## Additional Accessories

**Cash till refill kit:** Allows all the coins in cash register till to be poured into the JetSort in one step. JetSort counts and sorts these coins and replaces them in their respective locations in the same cash register drawer.

**Adjustable tabletop stand:** Raises the JetSort coin sorter to allow for safe and convenient coin bag operation.

**Magnet:** Helps cull ferrous metal debris.

**Gravity feed coin tray:** Coins are poured directly into the sorting mechanism of the JetSort 1000 coin sorter.

**Floor stand:** Allows for the JetSort 1000 coin sorter to be placed anywhere for convenient operation.

**Security door:** For use with the floor stand. Provides security for up to four bag adapters on the JetSort 1000 coin sorter.

**Remote display:** Large, red LED display shows coin totals for customer or supervisor viewing.

**Value counter option:** Allows for all coins to be counted by denomination into a single transfer box, which can then be poured into a single bag, a larger central JetSort or a coin packager for processing.

## Coin Boxes & Bag Adapters

A combination of bags and boxes can be used to accommodate different coin volumes. The Table Top Stand raises the JetSort for coin bagging adapters and coin bags, while the Table Mount provides necessary support for bags if they are suspended over the edge of a table/counter.

## Coin Packaging Kit

For dispensing coins into paper tubes. Kit includes one packaging adapter plus coin tubes for all Canadian coins. This option requires an optional communication kit and paper supplies which must be ordered separately.

**Foot pedal:** For use with the Coin Packaging Kit option, the foot pedal provides hands-free starting of JetSort. This option requires an optional communication kit, sold separately.

## Specifications

**Coins Sorted:** Handles all 6 Canadian coins (1¢, 5¢, 10¢, 25¢, \$1 and \$2)

**Sorting Speed:** Up to 2,200 coins/min.

**Dimensions:** 26.67 cm W x 25.4 cm H x 43.18 cm D

**Shipping Weight:** 24 kg

**Sort Head Warranty:** 10,000,000 Coins
